Event Name	Talk On “NEP 2020- Challenges and Implementation”
Date	14 th January 2023
Venue	Seminar Hall, DSATM

Objective: To create an ideal, thinking and energetic output suitable for entry in higher education and to align Indian education at par with international standards.

Purpose: Create awareness about NEP 2020 – challenges and implementation and their preparedness to involve in the teaching - learning process.

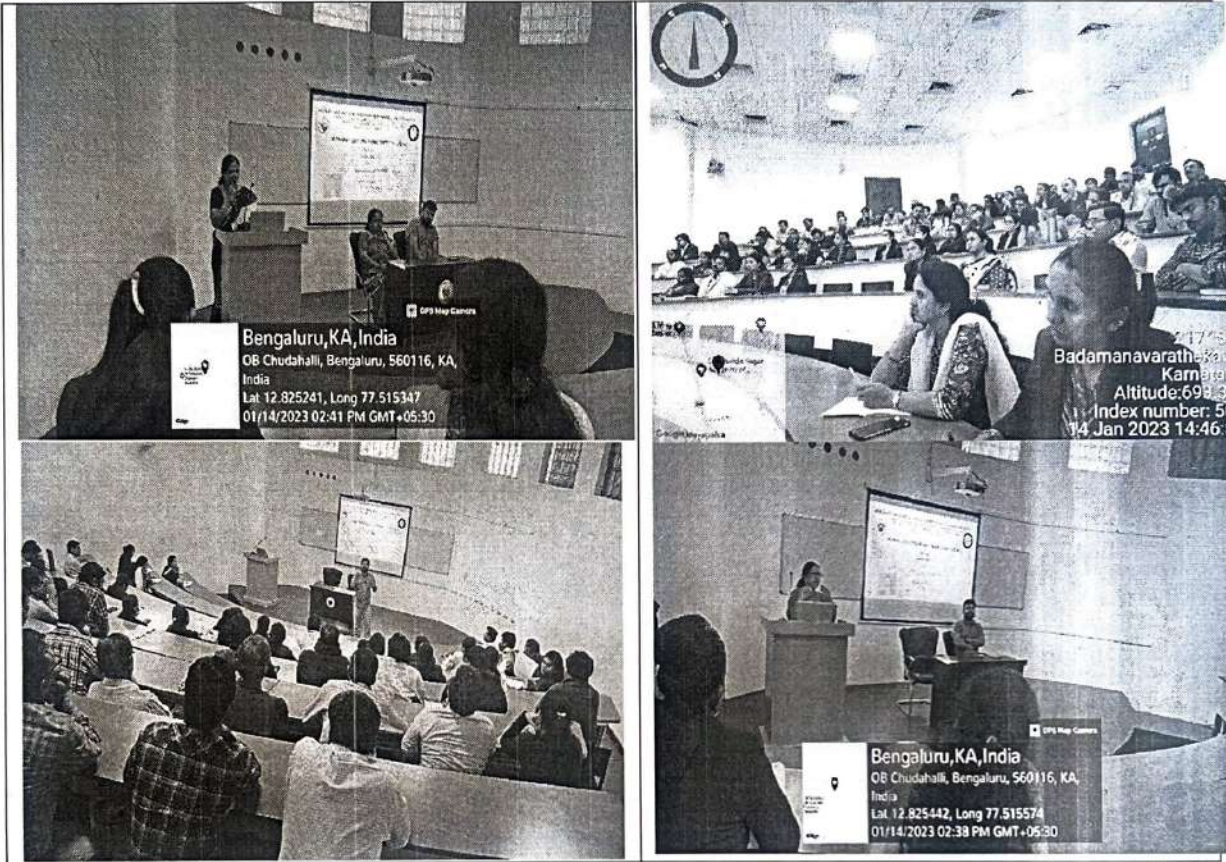

About the Program:

NEP is a truly groundbreaking document. It offers solutions to a wide range of pedagogical and structural issues and aims to make each and every Indian student truly future-ready. At the same time, it also poses a real challenge to the Indian educational system which can only be met if the responsibility is shared amongst the key stakeholders and if the educational leadership itself is educated and trained on how to bring about such a positive transformation without getting beaten by the myriad of challenges during the process.

A well-defined and futuristic education policy is a must for every country because education is the key driver of economic and social progress. Impediments to implementation in higher education i.e., Learning or certificate/degree, Orientation towards multi-disciplinary education, Funding, Digital connectivity, Reimagining and adopting pedagogical changes, Re-thinking assessment were clearly briefed by our resource person
