Faculty Emotional Empowerment Program - For Professors

&

Teenager Emotional Empowerment Program - For Students

SkillingIndia has partnered with **PeakMind** to bring the TEEP and FEEP program to the institutions run by the trust.

We (**PeakMind**) are a team of passionate industry professionals and Positive Psychology practitioners and researchers, committed to **enhancing the wellness and emotional quotient** of all the stakeholders (students, faculties & parents) of the educational institutions.

Issues Peakmind trying to address

Ensuring **Positive Teenager growth** has been an essential, but increasingly challenging task for parents and schools given the competitive environment, high ambitions, and changed social-emotional structure. And uncertainties like Covid-19, increased use of social/digital media, and the shift in skilling needs in the decade of AI have further accelerated it.

Peakmind Solution

We offer a **structured, tech-enabled curriculum** of courses and **live workshops** along with **one-on-one counseling** delivered by our wellbeing coaches. Our solution is designed to be effective and easy to implement and is in line with the varying needs, perceptions, and comfort of all.

Peakmind (TEEP) for your School

To augment Institutions' efforts in this direction, we would like to introduce our **Teenager Emotional Empowerment Program**. A **3-month journey** covering the following aspects of teenager development:

- 1st month: **Flourishing, Thriving, Wellbeing with positive psychology**
- 2nd month: **Mental Health awareness and challenges for Gen Z**
- 3rd month: **Social & Emotional Learning for a better relationship**

The program will offer weekly Group sessions, access to e-learning courses & monthly workshops for parents.

Peakmind (FEEP) for faculties

Faculty Emotional Empowerment Program [FEEP] is coming to you as a complimentary for the initial 6 months. This program would enable them to be in a positive frame of mind by overcoming stress and emotional related issues.

- a. **Brain Storming Exercises/Debating/Focussed Group Discussions** Understanding Gender and its Concepts: It is important to understand gender as a concept as derived for women and men by virtue of their social and cultural positioning in the society. This will help us strengthen our understanding of concepts like sex and gender, gender equality, gender mainstreaming, gender needs, gender sensitivity, gender budgeting etc. This can happen through quiz shows, games, debates, discussions etc.
- b. **Role play** Role play should focus on role reversals for facilitating a better understanding of gender roles and gender stereotypes. Following the role play the students should share their feelings, information and approach towards the issues at hand.
- c. **Games on breaking stereotypes:** Make one or two popular students of the class to stand. Ask the class to describe them in one word and write it on the black board. Ask the student if the class is right in their understanding of the student's traits. Continue this till 3 times or until one student says that this one word is not his/her true description. Then explain how stereotyping may not always be true.
- d. **Add – Group discussion** – Gender & development, gender and sustainable development, gender and natural resources, gender and equality, gender and health, gender and law, gender and care-givers etc.
