Event Name	"HACKATHON -2023"
Theme	Sponsor and jury for Hackathon 2023.
Date	7 th and 8 th Aug 2023
Venue	Department of ISE, DSATM

Objective: To provide students a platform to showcase their talent in a technologically advanced platform to solve issues, resolve problems.

Purpose:

- Find an effective solution to a problem by collaborating to build proofs of concept and minimum viable products.
- Generate high-value actionable business ideas and product concepts that could become new products.
- Boost the innovation culture and establish the idea-sharing, effective collaboration and creativeness driven by enthusiasm towards a shared goal.
- Create a community around a cause and help solve social issue.

About the Program:

A hackathon is an event that brings together experts and creates a collaborative environment for solving a certain problem. While the majority of hackathons revolve around computer programming and IT, many other industries follow suit.

The key points are:

- Introductions (meet-and-greet).
- Overview of the event (organizers explain hackathon rules and regulations and expectations).
- Project pitches (participants can pitch ideas and form teams).
- Hacking (collaboration on the project in a team format).
- Presenting a finished product or unfinished work (this happens more often due to time constraints).
- The jury decides who the winners are and hands out prizes.

Event Name	“Alumni Interaction with second year students”
Theme	Resume Writing.
Date	19th July 2023
Venue	Department of ISE, DSATM

Objective: To give students an insight of resume writing and interview preparation.

Purpose: To provide students with basic components to be present in a resume to make the resume more presentable .

About the Program:

To provide students with basic components to be present in a resume to make the resume more presentable .

The key points discussed are:

1. Pick a resume layout
2. List your contact information
3. Summarize your value as a professional in an introduction
4. List your work experience and accomplishments
5. Showcase your skills
6. Highlight your education
7. Add other sections that strengthen your resume
8. Choose a design for your resume
9. Proofread your application
10. Email your resume

The resource person gave complete analysis of a resume and also explained different sections of resume to be focused upon. Discussion on the parameters that are focused by recruiter also happened.

Faculty co-ordinator: Mrs. Sowmya S R, Assistant Professor.

Event Name	“Alumni Interaction with First year students”
Theme	Networking and 5G Technology
Date	07th July 2023
Venue	Department of ISE, DSATM

Objective: To give the students the opportunities to identify skills in networking and 5G technology.

Purpose: To provide current technological knowledge for the students about recent trends in the industry

About the Program:

Mr. Priyanshu singh, Student trainee at Nokia and Mr. Abhinav, Student trainee at Nokia started off with mentioning the importance of recent trends in the industry also shared the placement experience and preparation for the placements learning parameters for new courses.

The key points discussed are:

- How the networking is growing and how 5g technology will take up in future
- Choose a specific language for the specification course preferably C++ or Java
- Don't put stuffs in resume that you don't know
- DSA is very important
- If data science you are interested in go with python
- Data science includes visualisation tools like Power BI, Tableau etc.
- Even if you use the modules for simple things like sorting etc. for python you should be aware of the algorithm as simple problems they will ask to do with an algorithm as well as the time complexity for the different modules should be known
- Choose wisely your choice as in first year if it's decided which language to go with them only someone can have a good level in the 3rd year during placement time
- Nothing to pressure or worry have good friends also as good team/group helps a lot in collaborative and easy improvement

The resource person was able to inspire all the students by mentioning the advantages of Recent trends in the industry.

First year ISE students participated in the interactive session.

Event Name	“Computer Organization and Architecture”
Theme	Technical Session
Date& Time	10.03.2023, 11:30 am to 1:00 pm
Venue	Auditorium, DSATM
Resource Person	Mr. Sambhav Jain, Yayskool.com
Faculty	Mrs. Sowmya S R, Mrs. Pavani Cherukuru, Mrs. Spoorthi G S, Mrs. Kavyashree G M, Mrs. Harshitha B K

The department of Information Science and Engineering of Dayananda Sagar Academy of Technology and Management has conducted a Technical Session on “Computer Organization and Architecture” on 10th March 2023 from 11:30 am to 1:00 pm for the target audience of 245 participants from 3rd semester students and the faculty members of Computer cluster. The program was conducted in the presence of Dr. Nandini Prasad. K. S, Dean -Foreign Affairs and HOD-ISE, DSATM.

The Technical session on “Computer Organization and Architecture” started with a welcome speech and introduction of the resource person by Mrs. Harshitha B K, Assistant Professor, DSATM followed by the session. The resource person Mr. Sambhav Jain has explained the concepts of Parallel processing, Pipelining, Arithmetic pipeline, Instruction pipeline, Vector processing, Array processors and exhibited the demonstration of Computer Components like Motherboard, Bus, ROM, RAM, Parallel port and other components of computer in the technical session which made the students understand the concept well.

He addressed the students with good interaction as part of the probing questions he posed to the students constantly. The resource person was able to inspire all the participants to take a journey of their own strengths which should be aligned to their choices of industry sectors and which skills are required to acquire a good employment in the same.

At the end, session was ended by vote of thanks given by Mrs. Kavyashree G M, Assistant Professor, ISE, DSATM.

Event Name	“Project symposium”
Theme	Discussion about the student’s project with experts.
Date	9 th January 2023
Venue	Seminar hall "A" Block, 3 rd [Room No-308,309,407 & 410]

Objective: To give the students about opportunities to identify the multiple streams based on their projects, that helps the students analyse their interest and to utilize the opportunity to get better placement.

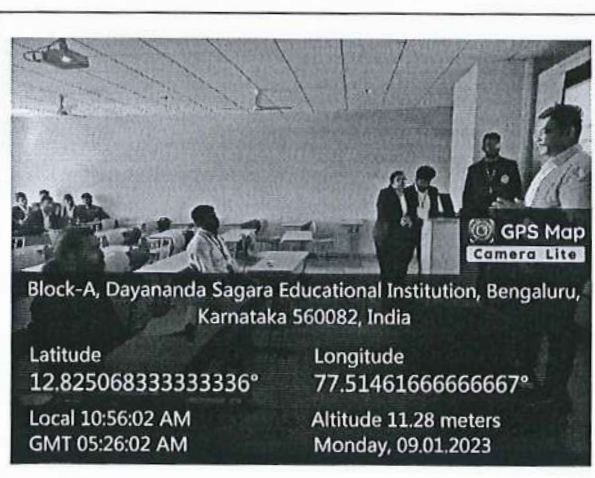

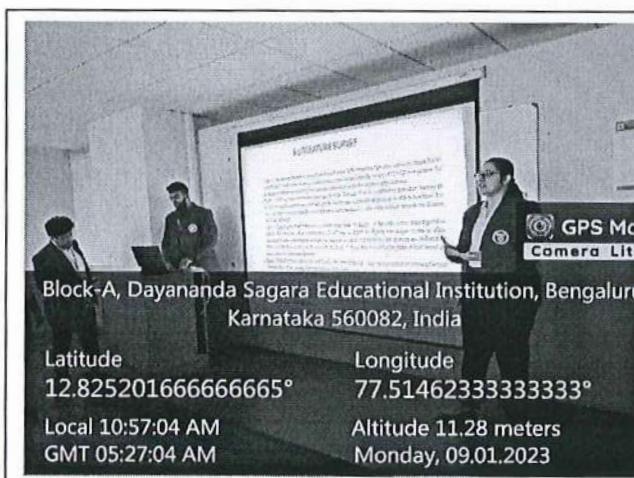

Purpose: To provide current technological knowledge for the students based on their projects through experts.

About the Program:

The event witnessed 175 students from seventh sem ISE branch of engineering attended. Dr. Ravishankar, Principal of DASTM addressed to the students about institution and university requirements along with the technical skills development should adapt to their projects.

Dr Nandini Prasad HOD & Dean (Foreign Affairs), addressed to the students about current technological knowledge based on their project streams. Resource Persons, Samarth Bhaskar Bhat, Jyothi Priya Penakonda, Mr. Sathvik Saya and Bharath H J addressed the major criteria where the students can take care off. Also they explained about his practical knowledge about projects and coding experiences during his interview.

Next session started with discussion about student’s projects with experts based batches allotted with evaluators. Each batch discussed their goals, requirements of their project. Experts guided the students about quality of projects which they discuss in symposium. Along with that, they motivated the students to concentrate on placements by showcasing their knowledge and skill during the placement activity.

Outcomes from Dr.K.Rama Abirami Project presentation

Event Name	“Project Symposium”- Phase-1
Theme	Project presentation
Date& Time	09.01.2023 & 10.30 pm to 1.30 pm (TRACK-4)
Venue	Department of ISE, DSATM
Faculty	Dr.K.Rama Abirami
Evaluator	Mr. Bharat H J, Software Developer, Surya Software, Bengaluru. (Online) http://meet.google.com/xgm-remb-cxx

Objective:To improve the project ideas and enhance their work for phase -2

Purpose:To enhance student’s skills on communication and technical aspects.

Totally 11 batches(44 students from VII A, B&C) were presented in track.4. Students have presented the phase-1 project to the evaluators. Suggestions for the further modules were given by the evaluators. Evaluators have given some important criteria for the presentation as follows:

- Introduce yourself
- Explain your project (Basic terms)
- What are you trying to resolve?
- Constraint that you are working on?
- Is there anything else that you want to add to project?

- Do you think investigating your time on this project is worth?

Students have presented their work based on the criteria and following suggestions are given for the project batches.

Batch- A1- Moving vehicle registration plate detection- NC740, apart from number plate detection, other predictions are suggested.

Batch- B6- Intrusion detection system to mitigate cyber attacks, Performance and comparison of machine learning algorithms are suggested.

Batch-C3- Speech to Text App customized for police functioning in different languages, Incorporation of more features to the App is suggested.

Batch-C8- Deep learning based model for identification of cardiac diseases, Dataset incorporation suggested.

Batch- C14- Hazardous Gas Detection system, Other hazardous gas detection in industry is suggested.

Batch-A2- AI based Chatbot to answer FAQs, Suggestions on other interactive features are given.

Batch A9-Deep learning based cyclone intensity estimation using INSAT-3D IR imagery, Suggestions on collection of dataset.

Batch B2-Classification and Localization of Lung Infection in COVID-19 using deep learning Algorithm, Suggestions of Deep learning models

Batch C6- Career Dendrogram, Incorporation of other career related features.

Batch A14-Tracking, reducing and reusing of plastic waste, Comparison of existing methods for recycling is suggested.

Batch A11- Privacy preservice through deep learning methods, Incorporation of security factors are suggested.

Outcomes from Dr.Madhumala R B Project presentation

Event Name	“Project Symposium”- Phase-1
Theme	Project presentation
Date& Time	09.01.2023 & 10.30 pm to 1.30 pm (TRACK-2)
Venue	Department of ISE, DSATM
Faculty	Dr.Madhumala R B
Evaluator	Ms. Jyothi Priya Penakonda, Senior Cloud Analyst, Oracle

Objective: To enhance their project knowledge.

Purpose: To enhance student’s presentation Skills

From the department of ISE we have arranged project symposium for 7th semester students on 09.01.2023 & 10.30 pm to 1.30 pm. **Ms. Jyothi Priya Penakonda**, Senior Cloud Analyst, Oracle evaluated the students presentation and students have presented the phase-1 project to the evaluators.

Following are the few suggestion made by the evaluator:

Project Symposium 2023's major goal was to encourage and give students a chance to focus on certain areas of interest, which helps them build inter- and intrapersonal abilities. The project symposium gave the students a stage on which to present their creative concepts.

R&S

“Plant more Trees, Save Water, Save Electricity, Avoid Plastics, The world is in your Hands”

Dayananda Sagar Academy of
Technology & Management
Udayapura, Kanakapura Road

DAYANANDA SAGAR ACADEMY OF TECHNOLOGY & MANAGEMENT

(Affiliated to Visvesvaraya Technological University, Belagavi and Approved by AICTE, New Delhi)

(6 Branches CSE, ISE, ECE, EEE, ME& CE Accredited 3 years by NBA, New Delhi)

Opp. Art of Living, Udayapura, Kanakapura Road, Bangalore- 560082

DEPARTMENT OF INFORMATION SCIENCE & ENGINEERING

Accredited 3 years by NBA, New Delhi

The evaluator, **Ms. Jyothi Priya Penakonda**, commended the ISE department's commitment in giving students a platform to demonstrate their technical proficiency and test their self-awareness in light of contemporary issues and novel difficulties.

She emphasised the value of project concepts that contribute significantly to societal wellbeing. Additionally, they emphasised the value of project-based learning in enhancing their all-around talents with a focus on multidisciplinary initiatives.

To increase the effectiveness of learning, this will be executed as a large project with the integration of smaller modules.

According to the assessor, communication, analytical thinking, and problem-solving skills are crucial for a career in engineering. The project symposium aids students in developing their writing abilities. This is a crucial learning opportunity. The preparation of students for the workplace will be advantageous, with a main emphasis on individual and group work. This is to be carried out as a major project with integration of small modules to have more effectiveness of learning.

Outcomes from Dr Pooja Nayak S Project presentation

Event Name	"Project Symposium"- Phase-1
Theme	Project presentation
Date & Time	09.01.2023 & 10.30 pm to 1.30 pm (TRACK-1)
Venue	Department of ISE, DSATM
Faculty	Dr Pooja Nayak S
Evaluator	Mr Samarth B Bhat, Technical Director, Reverse Engineering, Bangalore

Objective: To improve the project ideas and enhance their work for phase -2

Purpose: To enhance student's skills on communication and technical aspects.

Totally **12 batches** (46 students from VII A, B&C) were presented in track 1. Students have presented the phase-1 project to the evaluators. Suggestions for the further modules were given by the evaluators. Evaluators have given some important criteria for the presentation as follows:

- Introduce yourself
- Explain your project (Basic terms)
- What is the objective of your project?
- What methodologies are being used?
- Status of the Research paper?

Students have presented their work based on the criteria and following suggestions are given for the project batches.

1. Identify problem domain based on the societal issues and that will have a real world impact.

2. Objectives to be well defined.
3. Paper to be published in Scopus indexed journals.
4. Design methodology to be properly justified.

Outcomes from Dr Thirukrishna J T Project presentation

Event Name	“Project Symposium”- Phase-1
Theme	Project presentation
Date& Time	09.01.2023 & 10.30 pm to 1.30 pm
Venue	Department of ISE, DSATM /A 407
Faculty	DrThirukrishna J T
Evaluator	Mr Sathvik Saya, Application Support Engineer,L2, Bangalore
Track	3

Objective: To improve the project ideas and motivate the students enhance their work for phase -2

Purpose: To enhance student’s skills on communication and technical aspects.

Totally **11 batches** (45 students from VII A, B&C) were presented in track3. Students have presented the phase-1 project to the evaluators. Suggestions for the further modules were given by the evaluators.

The following suggestions are provided by the evaluator during the presentation,

- Batch students Introduction
- Abstract of the project
- Aim of the Project
- Survey analysis done based on the project
- Algorithms or Methods plan to proposed in the project
- Research paper publications

ABOUT ME

I have a clear, logical mind with a practical approach to problem solving and a drive to see things through completion. I am eager to learn, I enjoy overcoming challenges, and I have a genuine interest in emerging technologies and development.

PROJECTS

PROJECT MANAGEMENT APPLICATION

HTML, CSS, Ruby, Js

The goal of the application is to be a home for any amount of projects. A project lives within a team and can have as many users as necessary. A user can only belong to one team at a time. Ultimately, we'd want to extend this to allow a single user to belong to multiple teams.

STOCK TRACKER APPLICATION

HTML, CSS, Ruby, Js

This is a stock tracker & social media application, built with Ruby on Rails, where registered users can find recent stock prices, add them to a favorites list, and find/favorite the stocks that other users are tracking.

STROKE ANALYSIS

Python, Excel, Microsoft Power BI

Analyzing users which may get a stroke in near future based on some observations and different factors which are present in our database.

USER INTERFACE FOR A BAKERY SHOP

Adobe XD, Android Studio

With the help of prototyping technique in Adobe XD, and Android Studio, made a simple responsive user interface for a AR project

Summary

One Liner "I will be worth giving a chance as I develop/code as passion not as work, I just love it!!"

As a highly skilled BE student with one year of internship experience, I am a determined and dedicated individual who is constantly seeking new challenges to enhance my expertise in the field of Development. I am an immediate joiner with proficiency in Android (Native) full stack, MERN Stack, Spring MVC, and beginner-level React. My programming skills include Java, JS, C, Python, and C++, while my tech skills encompass AWS Cloud Architecting, Postman, Agile (Scrum), Penetration Testing, and IOT with Arduino and Raspberry Pi.

In terms of databases, I am experienced in MongoDB, MySQL, Firebase, and Spring Data JPA. My proficiency in Frontend/UI/UX includes HTML, CSS, Pug, Adobe-XD, Photoshop, Illustrator, and Figma. Furthermore, I have a strong full-stack knowledge of Spring and Android. As a beginner Spanish learner and Indian Cuisine enthusiast, I strive to develop myself both personally and professionally.

I have also engaged in several extra-curricular activities to expand my skill set. I have solved 150+ problems on Leetcode, which has enhanced my problem-solving abilities. In addition, my research paper on Android-Based Mobile Devices communication using P2P Network Channels has been published in Google scholar Journal 1788. My research paper on Military Grade FPV Drone for Enemy Recognition has been published in Mat-Journals JCSPIC 1598. As the former Founder/President of Fortune club DSATM, I have organized hackathons and pre-placement preparations. I have also completed a Cyber-Security course from Palo Alto and am a Blue Prism Associate RPA Developer. I have also contributed to humanitarian efforts with The Coping Camp.

Worked as Android Developer
in Startup Grind BBSR for almost 6 months with lots of memories, Knowledge,
Learning and a lot of teamwork. Helped in the creation of Competo an
application for finding teams for hackathons.

EXPERIENCE

Surya Software | Software Developer Intern (Jan 2022 - Apr 2022)

- * Developed an iOS temperature conversion application using Swift and worked on a contrast polarity calculator mobile application built using React and Typescript.

Smart Desert | Back-end Developer Intern (Aug 2021 - Oct 2021)

- * Majorly worked on the databases and table structures (SQL) following standard database architecture for eCommerce Camera web-service application.

Jee Carnot | Front-end Developer Intern (Nov 2020 - Dec 2020)

- * Drafted frontend components such as dashboard, admin portal, payment logs, feedback forms, etc for upcoming IITian startup using HTML, CSS, Bootstrap, Javascript, AJAX.

PROJECTS

Avenue Discoverer (Java | Processing)

- * Developed an automatic maze generator using processing (a java based environment).
- * Used A* pathfinding algorithm instead of breadth first or depth first search algorithm since it is an informed search algorithm which means it is much more efficient than standard algorithms for finding the path from source to destination.

Project Link: [view](#) | Output Link: [view](#)

Stream real-time data from Wikimedia (Spring | Kafka | MYSQL)

- * Developed a Spring MVC, Apache Kafa micro-services to read a large volumes of data from Wikimedia with usage of REST API and write to the database.
- * Used Kafa as a messaging system to exchange messages between micro-services.

Project Link: [view](#)

College Placement Management System - CPMS (Node js | Mongo DB | Express | Bootstrap | Javascript | Passport js)

- * Developed a full-stack web service which serves as a media for current students as a reference for his placements where former students post interview experience, job description and reviews.
- * Used Mongo D B as the database to have incredibly fast queries, flexible data model and utilised the cloud service Mongo DB atlas to set up, deploy, and scale the database.
